PROFESSIONAL PROFILE

Fullstack Developer with over 10 years of experience building scalable APIs and high-performance web applications using Node.js (NestJS, Express.js) and React (Next.js), with experience integrating legacy AS400 systems, automated testing, and technical leadership.

EXPERIENCIA LABORAL

Factor IT - *Full Stack Developer*

JUNE 2026 – SEPTEMBRE 2026

- Contribute to the development and evolution of a corporate platform using React and Next.js, incorporating modules to improve functionality and user experience.
- Develop REST APIs with Node.js and NestJS to integrate services, AS400 databases, and external APIs.
- Centralize critical information while maintaining performance, scalability, and security standards.

Soho (Chile - Remote) - *Fullstack Developer Semi Senior*

JANUARY 2025 – JUNE 2026

- Built high-traffic corporate portals with React and Next.js, optimizing performance through SSR/ISR and reusable module architecture.
- Designed and built REST APIs with Node.js and NestJS to integrate internal services, external APIs, legacy AS400 systems, and PostgreSQL.
- Implemented security and scalability standards across Node.js-based architectures.
- Maintained 80%+ test coverage with Jest (unit and integration), reducing production incidents.
- Collaborated directly with the design team using Figma and Storybook to ensure Design System consistency.
- Built and styled responsive components with Tailwind CSS.

CPR Servicios y Consultoría - *Deputy Engineering Lead*

APRIL 2023 – JANUARY 2025

-
- Supported the operational coordination of the development team in the director's absence, tracking objectives, deliverables, and quality standards.
 - Contributed to technical planning, priority definition, and sprint estimation using Agile methodologies (Scrum/Kanban).
 - Mentored junior developers and promoted engineering best practices and continuous improvement.

CPR Servicios y Consultoría - *Software Developer*

MARCH 2020 – MARCH 2023

- Designed and developed scalable REST APIs with Node.js and Express.js for high-volume insurance quoting systems, supporting high concurrency.
- Implemented middleware, modular routing, and session management with Express.js to improve code maintainability.
- Built complex SPAs with Angular and DevExtreme for real-time data visualization dashboards.
- Administered and optimized MySQL and Firebase Realtime Database instances.
- Integrated .NET services for automated data processing between APIs and enterprise spreadsheets.

U2 Software - *Web Developer*

APRIL 2019 – AUGUST 2019

- Fullstack development (**PHP/Laravel**) for TuLlanta and LaRueda e-commerce platforms, improving user experience and checkout conversion rates.

OpenTecnología - *Development Engineer*

FEBRUARY 2018 – APRIL 2019

- Spearheaded the technical migration from Vanilla PHP to **Laravel**, standardizing the codebase with OOP principles.
- Developed **Electronic Invoicing** modules and frontend API integrations using **Angular**.

CONSOLIDATED PREVIOUS EXPERIENCE - *Fullstack Developer*

APRIL 2014 – FEBRUARY 2018

- **LinkTIC / AnswerING / Yonohagofila / Stefanini**: Roles focused on hybrid mobile app development (**ionic/Cordova**), technical support for the tourism sector (**CakePHP**), and Oracle/MySQL database maintenance.

TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, PHP, SQL, HTML5, CSS3.
- **Backend**: **NestJS**, Node.js (Express), Laravel, PHP (Symfony, CakePHP), .NET.
- **Frontend**: **Next.js**, React (Hooks, Context, Redux), Angular, Tailwind CSS, Bootstrap, Ionic.

-
- **Databases:** PostgreSQL, MySQL, SQL Server, Firebase, Oracle (Basic).
 - **Tools:** Git (GitHub, GitLab, Bitbucket), Docker, Jira, Linux (Bash), Vercel, Turborepo..

FORMACIÓN

Fundación San José

- Information Systems Management Technology (Projected Graduation: 2026).

Continuous Learning

- Deployment strategies and **DevOps** for Node.js environments.

Languages

- Spanish: Native
- English: B1 (Proficient in technical documentation, writing, and professional communication).
